

5304 Statewide Planning Funds

Agency:

Date:

Invoice#

The Scope is to accomplish the objectives listed below and to develop a local transportation plan and a local transportation improvement program for all the local planning service areas. (Can be added to the Local Coordination Plan)

- develop a local long-range capital plan that will assist with the productivity and efficiency of future local transit projects;

A listing of identified capital projects future needs, by agency, for replacement, expansion or new service. This would recommend when an agency should apply for funding, the projects meets (proposed at this time) new guidance that the project was planned and listed in the plan and it meets the priority for the local area, etc.

Scope #1:

Date:

Milestone Narrative:

- develop a local transportaion plan that consists of increased safety, increased security and increased accessibility for mobility of people;

FTA has not released final guidance on Safety and Security. Add a section to be addressed after final guidance is released with a time TBD.guidance that the project was planned and listed in the plan and it meets the priority for the local area, etc.

Scope #2:

Date:

Milestone Narrative:

- develop a plan with implementation strategies that enhances integration and connectivity between transit systems and human service providers for mobility of people that meets MAP-21 guidance for coordination;

FTA has not released final guidance for Section 5311. Section 5310: Enhanced Mobility of Senior’s and Individuals with Disabilities (FTA C 9070.1G New Guidance released 6/6/2014) Section 5311: Formula Grants for Rural Areas (FTA C 9040.1G)

Scope #3:

Date:

Milestone Narrative:

- development of an FTA Application prioritization process, committee and scoring criteria;

This section is not new: Please add your process and other pertinent information to the document.

Scope #4:

Date:

Milestone Narrative:

- development of an annual schedule to meet FTA Title VI Planning requirements for the local planning area to assist FTA subrecipients and/or potential subrecipients wanting to apply for FTA funding;

These schedules will be to meet the Title VI planning requirements of the local areas.

Scope #5:

Date:

Milestone Narrative:

- emphasize the preservation of the existing transportation providers/systems;

This document is all about planning for short and long term transportation needs in the local planning area. Look at putting emphasizes of preserving what you already have, what it will take to prewerve what you already have, and what will be needed to expand in the future. Eligible activities may include an evaluation of existing programs of services. It may be useful for some agencies to have the resources to evaluate the impact/benefit oftheir existing programs or services to see where improvements or efficiencies can be made.

Scope #6:

Date:

Milestone Narrative:

- Take inventory of existing transit vehicles, to assist with prioritization of UDOT FTA applications;

Example of what you might want in an inventory: Agency, information about the vehicle (mileage, current maintenance costs)

Scope #7:

Date:

Milestone Narrative:

- inventory lists of all human service providers to assist 211; keep updated;

Self explanatory

Scope #8:

Date:

Milestone Narrative:

- assist local subrecipients with planning of Title VI requirements, update demographics when needed.

Self explanaroty

Scope #9:

Date:

Milestone Narrative:

Scope #10:

Date:

Milestone Narrative:
